

## **Brianna Skeete**

Brianna is an ambitious, positive and determined twenty-one year old student of the Barbados Community College (B.C.C). She has completed the first year in the Associate Degree in Visual Arts and aspires to be a Graphic Designer. She is passionate about her chosen career and is eager to showcase her creativity. Brianna was diagnosed at birth with cerebral palsy but further testing revealed a rare neonatal disorder that affected her motor skills and speech.

Although she has faced many challenges in life and during her studies, she remains optimistic and does not allow her condition to deter her from achieving her goals. Brianna is a self-motivated student who enjoys learning new graphic designing concepts and skills. In her spare time, she likes to keep abreast of current affairs.

Brianna's determination is admirable and she believes that she can motivate and encourage people with disabilities to never give up on their dreams. She shared that she would use the Scholarship towards her tuition fees and to purchase graphic designing software.

Brianna will receive a plaque and the scholarship will go towards her degree programme. Caribbean Catalyst Inc. extends heartiest congratulations to Brianna and wishes her continued success in her endeavours. Ms. Kerry-Ann Ifill, SCM, Former President of the Senate and Kregg's mother, Mrs. Linnell Nurse continue to be active supporters of the efforts of Caribbean Catalyst Inc. as the company works to assist the differently abled community in Barbados.
